PRANJAL KARAN

Aspiring RevOps & Business Systems Builder — Computer Science Engineering Student

+91-9162084158 — pranjalkaran2004@gmail.com — pranjalk.vercel.app — linkedin.com/in/pranjal-karan — github.com/Pranjal-k22

Education

VIT Bhopal University – Bachelor of Technology, Computer Science & Engineering — Sehore, MP **Sept 2023 – May 2027**

CGPA: 8.70/10

Technical Skills

Languages: JavaScript (ES6+), C++

Databases: MongoDB (Mongoose, Aggregation Pipelines, Compound & Partial Unique Indexes), MySQL, PostgreSQL, SQL

Backend & APIs: Node.js, Express.js, RESTful API Design, WebSockets, JWT Authentication, Clerk Auth

Frontend: React, HTML5, CSS3, Tailwind CSS v4, Vite, Responsive Web Design

SDLC & Practices: Agile Problem-Solving, Software Development Life Cycle, Git, GitHub, Docker, Automated Testing

AI & Emerging Tech: GitHub Copilot, Claude, ChatGPT, LLM API Integration (Gemini, Ollama)

Independent Ventures & Projects (0-to-1 Builds)

HealthPulse – Full-Stack Healthcare Appointment & Clinical Platform — Live — GitHub **2026**

- **Took a healthcare product from concept to a live, production-grade platform solo – 40,000+ lines** of code, **61 API endpoints** across 9 modules, and **13 data models** – covering everything from architecture decisions to deployment. Mapped and automated multi-step business workflows (booking, scheduling, notifications) end-to-end.
- **Identified and solved a critical operational risk** (double-booking under concurrent load) using a first-principles fix at the database layer, protecting data integrity without compromising user experience.
- **Built for trust and reliability**: role-based access across 3 user types, security safeguards against abuse, and a **zero-hallucination verification guard** on an AI clinical-summary feature – validated with **154 automated tests (471 assertions)** and a **98/100** performance score.

VibeChat – Real-Time Full-Stack Messaging Platform — GitHub **2026**

- **Designed and shipped** a real-time product achieving **sub-100ms** responsiveness, optimizing the underlying data pipeline for scale and efficiency.
- **Delivered a lean, production-ready package** (1.17MB bundle) with secure authentication and fast-loading media – balancing user experience against performance and cost constraints.

AstroSync – AI-Powered Compatibility Analysis Platform — Live — GitHub **2026**

- **Independently conceived and launched** a consumer-facing analytics product with 10 proprietary scoring modules and interactive data visualizations – comparable in structure to CRM reporting/dashboard work.
- **Solved for reliability and cost** by integrating a third-party AI provider with multi-model fallback logic, ensuring consistent product performance under real-world constraints.

Leadership & Achievements

• **Co-Lead (Social Media), Linpack Club, VIT Bhopal** – Owned the club's digital growth strategy end-to-end and **increased event engagement by 30%** through targeted, data-informed campaigns – direct experience in marketing execution, stakeholder communication, and measuring ROI on initiatives

• **National Qualifier, TCS CodeVita** – Cleared Round 1 of a national-level competitive problem-solving challenge, demonstrating first-principles analytical thinking under time pressure

• **Microsoft Certified: Azure AI Cloud Developer Associate** (Score: 922/1000) and **Azure Data Fundamentals** (Score: 955/1000) – self-driven upskilling and rapid domain mastery

• **MERN Full Stack Certification** (Ethnus & Codemithra)
