SUMMARY

Current Computer Science Engineering undergraduate (Class of 2027) with a solid foundation in software development, data structures, and algorithms. Proficient in object-oriented programming with Java and C++, SQL databases, and modern web technologies like React and Redux. Certified in Microsoft Azure Data Fundamentals, combining strong technical adaptability with proven teamwork and campus leadership capabilities.

EDUCATION

Vellore Institute of Technology

Bachelor of Technology in Computer Science Engineering — CGPA: 8.68

2023 – 2027

Sehore, India

Public School Darbhanga

12th Grade — 80.8%

2020-2021

Darbhanga, India

Public School Darbhanga

10th Grade — 73.8%

2018-2019

Darbhanga, India

TECHNICAL SKILLS

Languages: C++, JavaScript

Frontend: React, Redux Toolkit, HTML, CSS, TailwindCSS

Backend: Express.js, Node.js

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Vite, Clerk Auth

AI Tools: Claude, ChatGPT, GitHub Copilot

RELEVANT COURSEWORK

Data Structures and Algorithms, Operating Systems, Database Management Systems (DBMS), Object-Oriented Programming (OOP), Web Development

PROJECTS

QuickStay - Hotel Booking — React 19, Tailwind v4, Clerk Auth

2025

- Developed a full-featured booking platform with **Role-Based Access Control (RBAC)** for Admins and Customers.
- Engineered a real-time Admin Dashboard to manage **comprehensive booking availability** and track revenue streams.
- Implemented interactive UI animations using Framer Motion to enhance user engagement.
- Links: [GitHub Repository](#) | [Live Demo](#)

PodcastHub — React, Vite, TailwindCSS

2025

- Developed a responsive web application using React and Vite, achieving 40% faster build times compared to CRA.
- Designed a modern UI with TailwindCSS, ensuring 100% compatibility across mobile and desktop devices.
- Links: [GitHub Repository](#) | [Live Demo](#)

LiveClass – Video Learning Platform — MongoDB, Express.js, React.js, Node.js, JWT, Tailwind CSS, REST APIs

2026

- Developed a full-stack web application using the MERN stack to facilitate real-time video streaming and live classroom sessions.
- Engineered scalable RESTful APIs in Node.js to handle complete CRUD operations for session management, classroom creation, and historical data logging.
- Implemented secure user authentication protocols using JWT and Bcrypt password hashing to enforce role-based access controls for instructors and students.
- Designed a responsive user interface with React 18 and Tailwind CSS, leveraging the React Context API for efficient global state management across active communication sessions.
- Links: [GitHub Repository](#)

LEADERSHIP

Linpack Club

VIT Bhopal

Social Media Co-Lead

2024

- Managed promotional campaigns and content strategies, driving a 30% increase in event registrations and online engagement.
