PRANJAL KARAN

Aspiring Customer Success & Product Operations Builder — Computer Science Engineering Student

+91-9162084158 — pranjalkaran2004@gmail.com — pranjalk.vercel.app — linkedin.com/in/pranjal-karan — github.com/Pranjal-k22

Education

VIT Bhopal University – Bachelor of Technology, Computer Science & Engineering — Sehore, MP **Sept 2023 – May 2027**

CGPA: 8.70/10

Technical Skills

User-Facing & Support: Onboarding flow design, user communication, issue diagnosis & resolution, stakeholder-facing documentation

Languages: JavaScript (ES6+), C++

Databases: MongoDB (Mongoose, Aggregation Pipelines, Compound & Partial Unique Indexes), MySQL, PostgreSQL, SQL

Backend & APIs: Node.js, Express.js, RESTful API Design, WebSockets, JWT Authentication, Clerk Auth

Frontend: React, HTML5, CSS3, Tailwind CSS v4, Vite, Responsive Web Design

SDLC & Practices: Agile Problem-Solving, Software Development Life Cycle, Git, GitHub, Docker, Automated Testing, Self-Directed Remote Collaboration

AI & Emerging Tech: GitHub Copilot, Claude, ChatGPT, LLM API Integration (Gemini, Ollama)

Independent Ventures & Projects (0-to-1 Builds)

HealthPulse – Full-Stack Healthcare Appointment & Clinical Platform — Live — GitHub **2026**

- **Took a healthcare product from concept to a live, production-grade platform solo**, personally designing the end-to-end patient journey – booking, scheduling, and automated notifications – across **40,000+ lines of code** and **61 API endpoints**, with direct responsibility for the experience of 3 distinct user types (patients, doctors, admins).
- **Identified and resolved a real user-facing trust issue** (double-booking conflicts) with a first-principles fix at the database layer, protecting user confidence in the product without adding friction.
- **Built for reliability**: security safeguards, role-based access, and a **zero-hallucination verification guard** on an AI clinical-summary feature – validated with **154 automated tests (471 assertions)** and a **98/100** performance score, so users never encounter a broken experience.

VibeChat – Real-Time Full-Stack Messaging Platform — GitHub **2026**

- **Designed and shipped** a real-time product achieving **sub-100ms** responsiveness, keeping the user experience smooth and immediate.
- **Delivered a lean, production-ready package** (1.17MB bundle) with secure sign-in and fast-loading media – prioritizing a frictionless first impression for new users.

AstroSync – AI-Powered Compatibility Analysis Platform — Live — GitHub **2026**

- **Independently conceived and launched** a consumer-facing product end-to-end, owning the full user experience from first interaction to results delivery.
- **Solved for reliability under real-world constraints** by integrating a third-party AI provider with multi-model fallback logic, ensuring users always get a consistent response.

Leadership & Achievements

• **Co-Lead (Social Media), Linpack Club, VIT Bhopal** – Owned the club's digital growth and audience engagement strategy end-to-end, **increasing event engagement by 30%** through targeted, data-informed campaigns – direct experience communicating with and retaining an audience

• **National Qualifier, TCS CodeVita** – Cleared Round 1 of a national-level competitive problem-solving challenge, demonstrating structured, first-principles thinking under pressure – a core skill for diagnosing and resolving customer issues

• **Microsoft Certified: Azure AI Cloud Developer Associate** (Score: 922/1000) and **Azure Data Fundamentals** (Score: 955/1000) – self-driven upskilling and rapid domain mastery

• **MERN Full Stack Certification** (Ethnus & Codemithra)
